**When seeing an out-of-network provider, balance billing may occur resulting in an out-of-pocket expense.

^The dental plan provides first and only coverage for some oral surgery procedures, while major medical provides first and only coverage for other oral surgery procedures; a pre-determination is recommended

CheckUp™ Plus allows enrollees to get diagnostic and preventive dental services without those costs getting applied to the individual annual maximum - leaving more flexibility for restorative care that might be needed later.

Evidence-Based Integrated Care Plan (EBICP) provides additional cleaning(s) and/or fluoride treatments to individuals with specific medical conditions that have oral implications.
